Project Name: NodeQuiz

Test Case Template

Test Executed by: Lea Trueworthy	**Test Execution date:** October 6, 2019
Description: Build an end−to−end learning management system for their internal employees.	

Step	Test Steps	Expected	Actual Results	(Pass/ Fail)	Notes
1	Login Page Appears	Login Here: works properly	Works	Pass	
2	Login with employee id	Login then redirect to dashboard home page	Eemployee id works then directs home	Pass	
3	Three slideshow selection	click one of three slideshows directs to slideshow	work	Pass	
4	Quiz button	Quiz button directs to questions	Quiz button directs to questions, no questions appear	Fail	

Comments: "quizId" and "answers" variable needs to be defined better for questions to properly appear. Also take note of the router module to confirm the paths to each page is routing correctly.
